The Penalty Policy highlights and Gravity and Economic Benefit portions would be helpful. It may also be helpful to know how you use the information from the inspection to complete the penalty calculation. I will ask Connie how may will be attending. She suggested that we do the training via video conferencing or teleconference.

Hi Joey,

What part of the presentation would you like to keep? I will need to get back with you on dates, I need to check with Chuck Mikalian, Office of Regional Counsel, who I have asked to present part of the training. How many people do you think will be attending?

Sincerely,

Cheryl Burdett

Hi, Cheryl. Sorry I didn't reply sooner. I was out for Easter break and just returned. I think what we are looking for is just a basic application of USEPA's penalty policy to CAFO cases for the attorneys. I don't think Connie intends for the inspectors to be involved in the penalty training. Do you want to propose some dates for the training, and I will check with everyone here and get back to you?

Thanks,
Joey

Hi Joey,

I have been converting this stormwater prestation for penalty calculations to CAFO penalty calculation. It is not done, but wanted to send it to you so that we could discuss if this is the kind of training you are looking for. Please review and then we can set up a meeting.

Sorry, I have been unavailable I have been on leave.

Wondering if there might be a possibility for a preliminary discussion on the issue of CAFO case penalties?
